

VENICE GALLERY WEEKEND 2026

March 27, 28, and 29, 2026

Cocktail Venice Galleries View (by invitation only)

Saturday, March 28, Spazio Berlendis

The Venetian art galleries of the **Venice Galleries View** association are pleased to announce, following last year's success, the *Venice Gallery Weekend*, taking place on March 27, 28, and 29, 2026. **For three days, galleries and project rooms will open their doors to the public in a city-wide programme of exhibitions, talks, openings, and guided tours.**

The initiative continues with the aim of **strengthening the dialogue between Venice's art system and local and international visitors**, highlighting the richness and diversity of the city's artistic landscape. Today more than ever, the art market proves to be dynamic and constantly evolving, shaped also by ongoing political changes. Within this rapidly shifting context, new energies and visions emerge, while many organisations choose to redefine their presence, exploring different territories and alternative modes of existence. Venice, while welcoming impulses for renewal, chooses to resist excessive acceleration, **proposing slower rhythms and community-based projects** that reinforce a coherent cultural map.

The Venice Gallery Weekend route will unfold across several districts (*sestieri*) of the lagoon city, offering the opportunity to experience Venice beyond traditional museum circuits and to meet artists, curators, and gallerists.
